ATARI KNOWLEDGE TEST

1. How many joystick ports on an Atari 800?
A. 1
B. 2
C. 3
D. 4
The questions will get harder, I just don't want anyone to make a ZERO.
2. What is the name of the man generally referred to as the founder Of Atari?
A. Nolan Ryan
B. Nolan Roberts
C. Nolan Bushnell
D. Bill Gates
3. What Atari machine could use 2 POKEY chips without modification?
A. Atari 800
B. Atari 7800
C. Atari 130XE
D. Atari 5200
4. In what game were you a cat looking for mice to eat?
A. Cats In Space
B. Cat on a Hot Tin Roof
C. Alley Cat
D. Cat Fight
5. Which of the below listed machines can use the same game cartridges without any
adapters?
A. 2600 and 5200
B. 7800 and 2600
C. 800 and 5200
D. 130XE and 2600
6. 10 in hexadecimal is how much in base ten?
A. 20
B. 15
C. 12
D 46

7.	The	e Atari 65XL had a bit processor.			
	A.	2 bit			
	В.	4 bit			
	C.	8 bit			
	D.	16 bit			
8.	How many bits in a Byte?				
	A.	2			
	B.	7			
	C.	8			
	D.	32			
9.	Ch	oose the correct way to load a file from the floppy drive in Atari Basic			
	A.	LOAD "FILE.BAS"			
	B.	LOAD FILE.BAS			
	C.	LOAD D1: FILE.BAS			
	D.	LOAD "D1: FILE.BAS"			
10.	Н	ow many cities do you start out with in Missile Command?			
	A.	8			
	B.	6			
	C.	4			
	D.	I Have no Idea			
11. How do you look at the contents of any location in RAM?					
	A.	Peek			
	B.	Show			
	C.	Screen Print			
	D.	Poke			
12. What were the names of the 4 Ghosts in Pac Man?					
	A.	Inky, Pinky, Winky, Clyde			
	B.	Stinky, Blinky, Dinky, Bob			
	C.	Shadow, Speedy, Bashful, Pokey			
	D.	Blinky, Inky, Pinky, Clyde			
13.	In	Atari DOS 2.x which letter do you press to Jump to Atari Basic?			
	A.	С			
	B.	D			
	C.	В			
	D.	A			
	E.	Z			
14.	W	hat Atari device used color pens?			
	A.	1020			

C. 1027 D. 820 15. How many Kilobytes of 'ROM' space is in a 2716 EPROM? A. 32K B. 16K C. 2K D. 4K 16. The 850 Parallel connector had how many pins? A. 9 B. 12 C. 8 D. 15 17. What company published, "Claim Jumper" A. Parker Brothers B. Activision C. Serria On-Line D. Synapse Software 18. What chip detects player missile collisions? A. GTIA B. Pokey C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer		В.	1010
15. How many Kilobytes of 'ROM' space is in a 2716 EPROM? A. 32K B. 16K C. 2K D. 4K 16. The 850 Parallel connector had how many pins? A. 9 B. 12 C. 8 D. 15 17. What company published, "Claim Jumper" A. Parker Brothers B. Activision C. Serria On-Line D. Synapse Software 18. What chip detects player missile collisions? A. GTIA B. Pokey C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer		C.	1027
A. 32K B. 16K C. 2K D. 4K 16. The 850 Parallel connector had how many pins? A. 9 B. 12 C. 8 D. 15 17. What company published, "Claim Jumper" A. Parker Brothers B. Activision C. Serria On-Line D. Synapse Software 18. What chip detects player missile collisions? A. GTIA B. Pokey C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer		D.	820
B. 16K C. 2K D. 4K 16. The 850 Parallel connector had how many pins? A. 9 B. 12 C. 8 D. 15 17. What company published, "Claim Jumper" A. Parker Brothers B. Activision C. Serria On-Line D. Synapse Software 18. What chip detects player missile collisions? A. GTIA B. Pokey C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer	15.	Нс	ow many Kilobytes of 'ROM' space is in a 2716 EPROM?
C. 2K D. 4K 16. The 850 Parallel connector had how many pins? A. 9 B. 12 C. 8 D. 15 17. What company published, "Claim Jumper" A. Parker Brothers B. Activision C. Serria On-Line D. Synapse Software 18. What chip detects player missile collisions? A. GTIA B. Pokey C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer		A.	32К
D. 4K 16. The 850 Parallel connector had how many pins? A. 9 B. 12 C. 8 D. 15 17. What company published, "Claim Jumper" A. Parker Brothers B. Activision C. Serria On-Line D. Synapse Software 18. What chip detects player missile collisions? A. GTIA B. Pokey C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer		В.	16K
16. The 850 Parallel connector had how many pins? A. 9 B. 12 C. 8 D. 15 17. What company published, "Claim Jumper" A. Parker Brothers B. Activision C. Serria On-Line D. Synapse Software 18. What chip detects player missile collisions? A. GTIA B. Pokey C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer		C.	2K
A. 9 B. 12 C. 8 D. 15 17. What company published, "Claim Jumper" A. Parker Brothers B. Activision C. Serria On-Line D. Synapse Software 18. What chip detects player missile collisions? A. GTIA B. Pokey C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer		D.	4K
B. 12 C. 8 D. 15 17. What company published, "Claim Jumper" A. Parker Brothers B. Activision C. Serria On-Line D. Synapse Software 18. What chip detects player missile collisions? A. GTIA B. Pokey C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer	16.	Th	e 850 Parallel connector had how many pins?
C. 8 D. 15 D. 15 D. 15 D. 15 D. What company published, "Claim Jumper" A. Parker Brothers B. Activision C. Serria On-Line D. Synapse Software D. GTIA D. PlA D. Pokey C. ANTIC D. PIA D. PIA D. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products D. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade D. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer		A.	9
D. 15 17. What company published, "Claim Jumper" A. Parker Brothers B. Activision C. Serria On-Line D. Synapse Software 18. What chip detects player missile collisions? A. GTIA B. Pokey C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer		В.	12
 17. What company published, "Claim Jumper" A. Parker Brothers B. Activision C. Serria On-Line D. Synapse Software 18. What chip detects player missile collisions? A. GTIA B. Pokey C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer 		C.	8
 A. Parker Brothers B. Activision C. Serria On-Line D. Synapse Software 18. What chip detects player missile collisions? A. GTIA B. Pokey C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer 		D.	15
B. Activision C. Serria On-Line D. Synapse Software 18. What chip detects player missile collisions? A. GTIA B. Pokey C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer	17 .	W	hat company published, "Claim Jumper"
C. Serria On-Line D. Synapse Software 18. What chip detects player missile collisions? A. GTIA B. Pokey C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer		A.	Parker Brothers
 D. Synapse Software 18. What chip detects player missile collisions? A. GTIA B. Pokey C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer 		В.	Activision
 18. What chip detects player missile collisions? A. GTIA B. Pokey C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer 		C.	Serria On-Line
 A. GTIA B. Pokey C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer 		D.	Synapse Software
 B. Pokey C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer 	18.	W	hat chip detects player missile collisions?
C. ANTIC D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer		A.	GTIA
 D. PIA 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer 		В.	Pokey
 19. What is a CX85? A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer 		C.	ANTIC
 A. Real time clock interface board B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer 		D.	PIA
 B. Atari Keypad C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer 	19.	W	hat is a CX85?
C. Adapter to play 2600 games in a 7800 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer		A.	Real time clock interface board
 D. One of Atari's many vapor ware products 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer 		В.	Atari Keypad
 20. De Re Atari was what? A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer 		C.	Adapter to play 2600 games in a 7800
 A. A book B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer 		D.	One of Atari's many vapor ware products
 B. A programing language C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer 	20.	De	Re Atari was what?
 C. An educational program D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer 		A.	A book
 D. A memory upgrade 21. In the 800 series what does memory locations 560 and 561 do? A. Start of the stack B. Mem low pointer 		B.	A programing language
21. In the 800 series what does memory locations 560 and 561 do?A. Start of the stackB. Mem low pointer		C.	An educational program
A. Start of the stack B. Mem low pointer		D.	A memory upgrade
B. Mem low pointer	21.	In	the 800 series what does memory locations 560 and 561 do?
•		A.	Start of the stack
C. DOCharl arts.		В.	Mem low pointer
C. DOS boot vector		C.	DOS boot vector
D. Starting Address of the display list		D.	Starting Address of the display list

- 22. To run DOS 2 files in DOS 3, what did you have to do?
 - A. Use Basic to convert the file structure
 - B. Use the file repair option in DOS 3
 - C. Use the Access DOS 2 option
 - D. Get mad and reboot in another DOS
- 23. How many new graphic modes did the GTIA chip have?
 - A. 3
 - B. 4
 - C. 8
 - D. 16
- 24. Using Atari Basic, how did you remove the last entry on the stack?
 - A. Remove
 - B. Pop
 - C. Pull
 - D. Stack -1
- 25. What does pin 11 do on the SIO?
 - A. Start the cassette tape drive
 - B. Provide a common ground
 - C. Provide Audio In
 - D. Clock out

For the correct answers send \$25 dollars to...

Just Kidding, I'll post the correct answers in a couple of days.
